applicants
30

Fee
Basically
free

Ideathon focused on Social issues in Southeast Asia

Tongali provides entrepreneurship education to develop the ability to take on the challenge of designing a new future using ideas and technology. During the session we will learn how to capture social issues and come up with solution ideas. Participants will experience basic process to create business idea from social issues such as United Nations Sustainable Development Goals (UN-SDGs). We will invite lecturers from Singapore, where known as an entrepreneur's paradise in Asia, and use a variety of applications to learn. After this training, we will also provide a chance to actually test your business idea in Indonesia for selected teams (we will form teams during the workshop). No prior knowledge is required, we are waiting your applications!
